## About Clean Influence

We are not your average cleaning company. Clean

Influence - DMV was founded based on the core belief that the cleanliness and organization of your environment, whether it is your home or workspace, has a direct influence on you as an individual in terms of your productivity, mood, emotional state, stress level, mental clarity, and health.

## Client Expectations

Revamp and responsive web coding

## 01 One-single platform

Clean Influence desired a centralized platform for managing all cleaning service requests, bookings, inquiries, and more. The platform needed to be redesigned and made responsive enough to handle a wide range of bookings processes on auto-pilot.

## 02 Seamless, auto scalability

A sudden influx of new bookings and inquiries is observed. The clients desired a powerful, technologically advanced platform that can scale up automatically.

We took up the challenge.
